ABOUT THIS WINERY

Over the years, Pascal has developed a true style for his wines, very recognizable by its purity and elegance. Pascal creates a "bio vinification", after a very light settling, the fermentation of the juices is conducted with indigenous yeasts, the maturing "on lees" plays a fundamental role on the concentration and complexity of our wines.

TASTING NOTES

This wine is immediately identifiable at tasting thanks to its great freshness, vivacity, minerality, complexity and salinity at the end of the mouth. It should be decanted to let its animal aromas develop.

PRODUCT NOTES

Plot selection on 2 hectares of limestone soils located in the villages of Champtin and Bué-en-Sancerre. Organically grown, these old vines produce exceptional grapes and an extremely pure and concentrated juice.

PRODUCTION NOTES

"Sauvage" lives up to its name, aged on fine lees (stainless steel tanks) for 12 months, bottled without filtration or chilling.
